

Meeting Agenda

Date: 2016-04-29

Facilitator: Lisa Karlsson

Participants: Sabrina Samuelsson, Lisa Karlsson, Simon Moos, Hannes von Essen

1. Objectives (5 min)

Resolve any issues preventing the team to continue.

The up-vector

2. Reports (15 min)

from previous meeting

Simon: Wrote some in the report

Sabbe and Hannes: Parachute XZ-steering

Lisa: Been ill

3. Discussion items (35 min)

Up-vector: Has been some trouble with finding and/or calculating the vectors needed, but progress has been made. Acceleration needs to be handled in a similar fashion as before so that the velocity in XZ doesn't get out of hand and you just go in circles. The camera has to be rotated separately from the head. Might need to create an API for this.

Not all that much done since Monday.

4. Outcomes and assignments (5 min)

Same as before.

5. Wrap up

Next meeting: Monday %, kl 10.00
